The National Consumer Law Center [1](NCLC) is the nation's consumer law expert. NCLC is a non-profit that since 1969 has been helping consumers, their advocates, and public policy makers use powerful and complex consumer laws on behalf of low-income and vulnerable Americans seeking economic justice. Read our story [2] to learn more.

The NCLC consumer law treatises were first published in 1982, and have been expanded and updated every year since then. There are now 21 consumer law treatises, many of which are well over 1000 print pages, not counting thousands of sample pleadings, practice aids and primary sources that are available online with the titles.

In March, 2015, NCLC moved online the full text of all 21 treatises, featuring advanced searching, fluid navigation, html format allowing easy reading on tablets and smart phones, live links, and full integration of the thousands of pleadings, primary sources, and practice aids. Each treatise is regularly updated and the online versions are capable of adding new developments almost immediately.

Readers can subscribe to individual titles or the complete 21 treatise set, and they can subscribe to the online version only, or opt for print and online where the subscription includes the current print edition and any print revision issued during the subscription period. Relevant pleadings, practice aids and primary sources are included online with each title’s subscription and a subscription to the whole set includes over 5000 such supplementary online materials.

The principal treatise authors are typically NCLC staff attorneys, often with more than 21 or even more than 40 years of consumer law expertise. In addition, scores of other practicing consumer law attorneys from every part of the country contribute to the titles. This makes each treatise a unique combination of comprehensive and definitive authority from the experts plus practical insights and practice tools from attorneys seeing real clients and handling real cases on a daily basis.

As a result, NCLC consumer law treatises are often referred to as the “bibles of consumer law,” both by consumer attorneys and those representing creditors and merchants. Here are just a few comments on the treatises:
