Section 1.4 [1], infra, is a debt-defense checklist that, for a given type of debt and phase of collection, immediately links the user to appropriate material to review. It is recommended that readers use the digital version of the debt-defense checklist because it contains live links that will speed up access to the relevant material. For example, if the debt is reduced to a judgment, clicking on the link brings users to a list of debtor and creditor rights after a judgment for the creditor. Clicking on the link for garnishment of the debtor’s wages immediately calls up the treatise section dealing with that topic.
