

announcement of the Chicago Area Nonfat Dry Milk price, although the price is not used in the application of the order.

(3) The Chicago Area Nonfat Dry Milk Price series has been discontinued. The Central States Area Nonfat Dry Milk price series is used for class pricing purposes under all milk orders. The difference between these two price series for the period of January 1991 through June 1993 has been less than \$.0021 per pound of nonfat dry milk.

(4) Therefore, the Central States Nonfat Dry Milk price series is determined to be equivalent to the former Chicago Area Nonfat Dry Milk price series.

It is further found and determined that:

(1) The two orders involved in this notice provide that if for any reason a price or pricing constituent required by the order for computing class prices or for other purposes is not available as prescribed in the order, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

(2) This determination is necessary because the Chicago Area Nonfat Dry Milk Price is no longer available.

(3) This determination does not require of persons affected substantial or extensive preparation prior to the effective date.

(4) This action is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the respective marketing areas.

Therefore, good cause exists for making this determination effective September 3, 1993.

Dated: September 21, 1993.

Patricia A. Jensen,

Deputy Assistant Secretary, Marketing and Inspection Services.
